The Network Innovation

dLAN® 500 AVsmart+

Clever and stylish – at 500 Mbps.

Clever plug and play - no cables, no configuration! With its one-of-a-kind dLAN® screen display, dLAN® 500 AVsmart+ provides information about the status of the home network directly on the adapter. So, for example, the connection quality to other dLAN® adapters is immediately apparent. The new dLAN® generation transmits data at a maximum speed of up to 500 Mbps—ideal for computers and for consumer electronics. The integrated electrical socket ensures that no power outlet is lost. Intelligent, patented PowerSave technology enables lower power consumption.

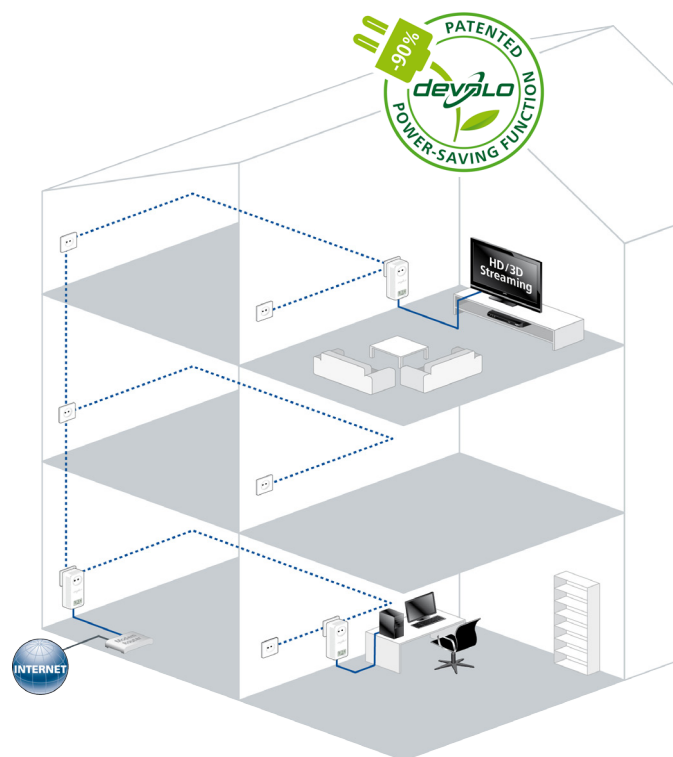

dLAN® 500 AVsmart+

dLAN® 500 AVsmart+
Starter Kit

Highlights:

- High-speed home network via the household electrical wiring with transfer rates of up to 500 Mbps - up to a cable length of 300 metres
- For the perfect overview, the unique dLAN® screen status display shows the connection status with other powerline adapters in the network
- No configuration is necessary—plug the adapter into the power outlet, connect it to your computer via the network cable and you are ready to go!
- No power outlet is lost! You can connect terminal devices and power strips directly thro' the adapter, thanks to the integrated electrical socket
- An integrated mains filter significantly improves data transmission in the dLAN® home network
- Perfect for all types of data transmission in the home network, 3D entertainment throughout the home, multimedia streaming and multi-room entertainment—multiple HDTV streams can be transmitted simultaneously
- Automatic data prioritisation (Quality of Service) ensures interference-free video transmission and Internet phone calls, even if more than one person is surfing the Internet at the same time
- Security at the touch of a button—secure AES encryption is activated very easily at the touch of a button on the adapter
- Power consumption of just 0.5 watts in standby mode thanks to patented PowerSave technology: the adapter reduces its energy consumption automatically by over 90 percent
- Easy set-up possible with no need for a computer! Additional monitoring and configuration of the dLAN® home network is provided by the intuitive dLAN® Cockpit software for Windows and Mac OS X
- Compatible with all dLAN® 200 and 500 AV adapters (HomePlug AV)
- 3 year warranty, as unit is designed, tested and certified in Germany

Software supports:
